

# ECS LSB-S30 COMPACT SUBWOOFER

## ECS LSB-S30 COMPACT SUBWOOFER

The E-coustic Systems LSB-S30 is our latest addition in compact subwoofers. It incorporates a long throw 12" transducer that provides bass extension to 30 Hz. Its compact size, combined with its ability to faithfully reproduce very low frequency content makes it an ideal addition to small houses of worship with pipe organs. In larger venues, it can be distributed in plenum spaces under seating, as well as above ceilings where space may be limited.

### SPECIFICATIONS

**Operating bandwidth**  
37 Hz - 67 Hz -3dB

**Maximum Output**  
121dB SPL

**Transducers**  
12" Long Extension

**Weight**  
83 lLbs.

**Sensitivity**  
95dB SPL @ 1 meter  
referenced 2.83v 1/2 space  
measured as 28.3v @10 meters

**Impedance**  
8 ohms nominal

**Dimensions**  
24"H x 15"W x 22.5" D

**Construction**  
13 Ply Baltic Birch  
Polyurea Coated

**Peak Output**  
127 dB SPL

**Power Handling**  
400 w Continuous  
800 W Program
